

# Unveiling the Process of Rendering

## STEP 1 THE COLLECTION

Animal by-products are collected from

Local Butchers & Abattoirs

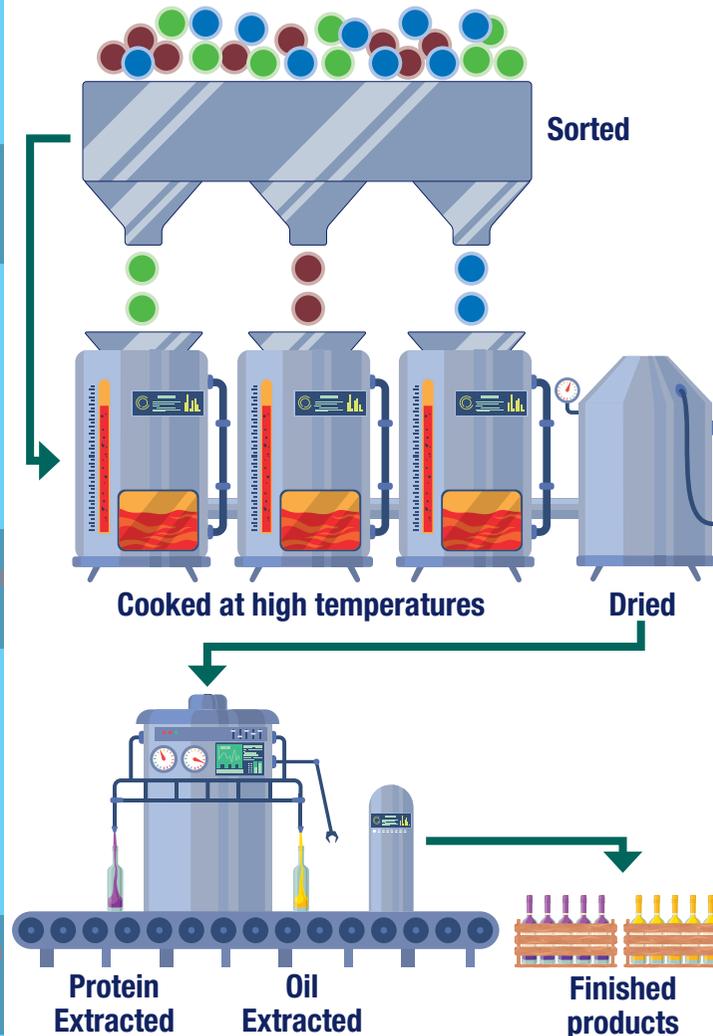

Restaurants

Retail Outlets

## STEP 2 THE PROCESS

Using specifically engineered technology, the by-product is transformed into new, usable ingredients.

## STEP 3 THE OUTCOME

Rendered products are a valuable ingredient in a number of products

Biofuel/  
green energy

Animal feed

Fertiliser

Pet food

Oleo-chemical  
industry
