

BUSH'S PROTEINS

Important Notice to NSW Suppliers

4/12/2023

Attention: To Business Owner/Manager

To whom this may concern,

A J Bush & Sons (Manufactures) Pty Ltd t/a Bush's Proteins located at 1106 Windsor Road, Rouse Hill, NSW 2155 will **cease collection of all materials from 12 noon Friday 8th December 2023.**

After 70 years of operation in Riverstone, we have made the difficult decision to cease collection of materials for the foreseeable future. This is due to the rapidly changing environment in Northwest Sydney, and regulatory obligations that have made the delivery of our services to the industry untenable. As a result, our facility will no longer be processing raw material, therefore, collection services for your business cannot continue for the foreseeable future.

As a company, we remain committed to the Rendering industry and will continue to investigate potential site relocations for the NSW business. Please note, this decision will have no impact on our Queensland operations, which will continue to operate as per usual.

What this means for our suppliers?

From Friday 8th December 2023, we will no longer be collecting or receiving materials from your business. We understand that this news may cause some distress and uncertainty for your business. We strongly suggest that you seek alternatives for your collection of your material.

Finally, we would like to acknowledge our deep appreciation for all your support over the years we have serviced your business, and ideally we look forward to working with you again in the future.

Kind regards,
AJ Bush Management
Riverstone Plant
